Applicant's arguments filed 4/29/02 have been fully considered but they are not persuasive.

I. Rejection of claims 4 and 8 under 35 U.S.C. 103(a) over Eibner on record will be maintained for reasons on record and reasons as follows. New claims 10,11,13,16,18 are added to this rejection.

Applicant argues that amended claims do not include the combination of a fatty acid salt and a fertilizer. Applicant argues that Eibner fails to suggest the combination of metal soaps with fertilizer. Applicant argues that the examples of Eibner do not include the metal soap as the enveloping agent.

Examiner argues that the claims use the open language "comprising" which leaves claims open to a composition comprising both fatty acid salts and fertilizers. Eibner teaches a plant activating agent comprising metal soaps and fertilizers. See claims 1,2,7. Examiner further argues that examples of every possible combination do not need to be presented in a reference.

II. Allowable Subject Matter

Claims 6,7,12,14,15,17 are allowable. The prior art does not teach or suggest the limitation of the claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 1616

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
